British University of Vietnam,
Ecopark Campus, 160000 Hung
Yen, Hanoi, Vietnam

Deadline for manuscript
submissions:

closed (31 January 2019)

Message from the Guest Editors

This Special Issue will accept high-quality articles containing original research results and survey articles of exceptional merit on new developments in the following topics:

Ordinary and Partial Differential Equations

Difference equations

Integral and integrodifferential equations

Boundary value problems

Fractional Calculus and Applications

Calculus on Time Scales and Applications

Existence, uniqueness and multiplicity results by variational and/or topological methods

Qualitative, asymptotic and oscillation properties.

Fixed point theory

Applications to real world phenomena.

an Open Access Journal by MDPI

Editor-in-Chief

Department of Statistics,
Computer Science and
Mathematics, Public University of
Navarra, 31006 Pamplona, Spain

Message from the Editor-in-Chief

Axioms is dedicated to the foundations (structure and axiomatic basis, in particular) of mathematical theories, not only from a crisp or strictly classical sense, but also from a fuzzy and generalized sense. This includes the more innovative current scientific trends, devoted to discover and solve new challenging problems. The prime goal of *Axioms* is to publish first-class, original research articles under an open access policy with minimal fees for the authors. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High visibility: indexed within **SCIE (Web of Science)**, **dblp**, and **other databases**.

Journal Rank: JCR - Q2 (Mathematics, Applied)

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
