Deadline for manuscript
submissions:

closed (30 September 2018)

Message from the Guest Editor

Dear Colleagues:

We welcome submissions of papers involved in developing a better understanding of the relationship between natural environments and human health. We take a broad perspective of what constitutes human health and have moved past the more traditional “absence of disease” connotation to include an individual’s holistic well-being. Likewise, we take a more comprehensive view of natural environments to include areas and landscapes that contain a variety of factors associated with the natural world. Thus, submissions focusing on the ways of connecting individuals to nature and digital and technologically-enabled environments are both welcome. Specific examples of topics include: historical connections between health and natural environments; health benefits and outcomes from the nature experience; sense of place in natural settings; urban and municipal natural landscapes and their contributions to health; negative health effects from natural environments; physical, psychological, neurological, cognitive, and behavioral effects from spending time in nature; physical activity in natural settings, etc.

Message from the Editor-in-Chief

With warm greetings, it is a pleasure to invite you to contribute a research article or comprehensive review for consideration and publication in *Behavioral Sciences*. *Behavioral Sciences* is an international, scientific, open access journal providing an advanced forum for discussions and research regarding the intersection between psychiatry, neuroscience, psychology, cognitive and behavioral sciences, and behavioral biology. More information are available at: <https://www.mdpi.com/journal/behavsci>. We would be pleased to welcome you as one of our authors and have the opportunity to consider your work for publication.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubMed, PMC, Embase, PsycInfo, and other databases.

Journal Rank: JCR - Q2 (Psychology, Multidisciplinary) / CiteScore - Q2 (Development)
