Message from the Guest Editors

Dear Colleagues,

Lasers have been used in medicine and dentistry for decades, as a stand-alone treatment method or as an adjunct to conventional therapy. Due to advancements in their application, they are used in various branches of dentistry, such as oral medicine, periodontology, oral surgery, orthodontics, implantology, restorative dentistry and pediatric dentistry.

There are many results in the literature, though they vary in the applied laser therapy parameters and are therefore difficult to compare. New research with more patients will help to develop standardized protocols to treat a single diagnosis. Therefore, I invite you all to contribute to this Special Issue of Bioengineering with your results on laser therapy in oral diseases.

Deadline for manuscript

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Bioengineering* (ISSN 2306-5354). *Bioengineering* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. *Bioengineering* provides an advanced forum for the science and technology of bioengineering. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPlus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Engineering, Biomedical*)
