Message from the Guest Editors

Dear Colleagues,

Recent advances in the field of female reproductive biology have been underpinned by a greater understanding of the inter-dependency between the ovarian follicle and oocyte, and the interactions between the oviduct/uterine environment and embryo. These new insights have resulted in the refinement of current artificial reproductive technologies and subsequent improvements in oocyte and embryo quality.

For this special issue, we invite review and research articles on aspects of follicular maturation, attainment of oocyte developmental competency, early embryonic development and embryo interactions with the oviduct or uterus, as well as recent advancements in *in vitro* maturation or *in vitro* fertilisation systems.

Dr. Janet Pitman

Special Issue

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Jukka Finne

Research Programme in
Molecular and Integrative
Biosciences, Faculty of Biological
and Environmental Sciences,
University of Helsinki, P.O. Box
56, FI-00014 Helsinki, Finland

Prof. Dr. Andrés Moya

Integrative Systems Biology
Institute, University of Valencia
and CSIC, 46980 Valencia, Spain

Message from the Editorial Board

A major strength of biological science is the diversity of approaches that biological scientists apply to their research problems. *Biology* reflects this diversity and brings together studies employing the varied experimental and theoretical approaches that are fueling biological discovery. *Biology*, the journal, is a fully peer-reviewed publication with a rapid and economical route to open access publication and is listed on PubMed. All articles are peer-reviewed and the editorial focus is on determining that the work is scientifically sound rather than trying to predict its future impact.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, PubAg, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q1 (Biology) / CiteScore - Q1 (General Agricultural and Biological Sciences)
