Message from the Guest Editors

Dear Colleagues,

During the COVID-19 pandemic, the importance of the interference between inflammatory and haemostatic processes has received special attention due to the frequent findings of microthrombi in the lungs and other organs.

This Special Issue focuses on defining the molecular mechanisms regulating thrombo-inflammation and its clinical importance in specific disease states. The aims of this Issue are:

- 1) To publish manuscripts focused on the pathogenesis of thrombo-inflammation in specific disease states;
- 2) To obtain insights into the parallels and differences between different thrombo-inflammatory disorders (sepsis, major trauma or severe COVID-19 infection);
- 3) To review the epidemiology as well as the laboratory and prognostic markers of severe thrombo-inflammation;
- 4) To analyse the data related to anticoagulation and immunomodulatory interventions and present novel therapeutic agents.

Dr. Krisztián Tánczos

Dr. Aniko Smudla

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (Pharmacology and Pharmacy) / CiteScore - Q1 (Medicine (miscellaneous))
