Department of Neurology, David  
Geffen School of Medicine,  
University of California, Los  
Angeles, CA, USA

Deadline for manuscript  
submissions:

**closed (30 April 2024)**

### Message from the Guest Editor

This Special Issue, titled "Protein Purification", is dedicated to publishing the latest advancements, techniques, and research in the field of protein purification. This interdisciplinary Special Issue provides a platform for scientists, researchers, and experts to share their insights into the purification of proteins, offering valuable knowledge on various methodologies, tools, and applications. Covering topics from fundamental principles to innovative technologies, "Protein Purification" serves as an essential resource for professionals engaged in biochemistry, biotechnology, and other related disciplines, fostering collaboration and progress in this critical area of scientific inquiry. Protein purification is a vital process that underpins our ability to decipher protein structures and advance the development of targeted drugs. It plays a pivotal role in the production of vaccines and pharmaceuticals, making it indispensable in the quest for effective treatments and medical solutions.

## Message from the Editor-in-Chief

*Biomedicines* (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
