Message from the Guest Editor

Dear Colleagues,

In this Commemorative Special Issue, we intend to present an overview of the state of the art of this exciting story, including the significant recent advances and the latest research and milestones in research on pulmonary surfactants. For this Special Issue, we welcome the submission of original high-quality research and review articles focused on (i) diagnostic tools for surfactant deficiency, (ii) in vivo and in vitro models, (iii) molecular mechanisms underlying the abnormal surfactant metabolism and function in the lung and other organs, and (iv) novel therapeutic strategies for surfactant replacement therapy.
