- 3. Elmezzi Graduate School of Molecular Medicine at Northwell Health, Manhasset, NY 11030, USA

## **Message from the Guest Editor**

The scope of research covered in this Special Issue encompasses various organs affected by hemorrhagic shock, including the heart, lungs, liver, and kidneys. By collating contributions from diverse researchers, this Special Issue aims to foster a deeper understanding of hemorrhagic shock pathophysiology and facilitate the development of targeted therapeutic approaches to mitigate its devastating effects.

Deadline for manuscript submissions:

31 October 2024

## **Message from the Editor-in-Chief**

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research. biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to Biomedicines, be it original research, review articles, or developing Special Issues of current key topics.

#### **Author Benefits**

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous*))
