Message from the Guest Editors

Dear Colleagues,

This Special Issue will present the latest innovations and research findings in the field. We are particularly interested in articles that delve into new diagnostic methods, emerging therapeutic strategies, and comprehensive management approaches for gastrointestinal diseases. Topics of interest include, but are not limited to, breakthroughs in diagnostic imaging and endoscopy for intestinal diseases, novel therapeutic approaches, and drug developments. Advances in endoscopic techniques in intestinal disease treatment, diagnostic, and therapeutic challenges are also of interest.

Dr. Hsuheng Yen

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
