Message from the Guest Editor

Dear Colleagues,

For a long time, natural medicine has been used as a therapeutic therapy based on generations of indigenous practices. Today the rise in natural remedies has been largely driven by public demand and billions of dollars are spent annually on herbal medicines. It is therefore important to document the effectiveness of natural medicine, its potential side effects, and potential interactions.

The development of new natural products can significantly improve the biomedical efficiency of natural medicine. This Special Issue will highlight research based on the evidence of natural medicines, with a particular focus on their use in therapy. I cordially invite authors to contribute original articles, as well as reviews, that unravel new biological activity of naturally-occurring products to help create greater opportunities for their future use.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Biomedicines (ISSN 2227-9059) is an open access journal devoted to all aspects of research on human health and disease, the discovery and characterization of new therapeutic targets, therapeutic strategies, and research of naturally driven biomedicines, pharmaceuticals, and biopharmaceutical products. Topics include pathogenesis mechanisms of diseases, translational medical research, biomaterial in biomedical research, natural bioactive molecules, biologics, vaccines, gene therapies, cell-based therapies, targeted specific antibodies, recombinant therapeutic proteins, nanobiotechnology driven products, targeted therapy, bioimaging, biosensors, biomarkers, and biosimilars. The journal is open for publication of studies conducted at the basic science and preclinical research levels. We invite you to consider submitting your work to *Biomedicines*, be it original research, review articles, or developing Special Issues of current key topics.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [CAPUS / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Pharmacology & Pharmacy*) / CiteScore - Q2 (*Medicine (miscellaneous)*)
