## **Message from the Guest Editors**

Dear Colleagues,

We are pleased to announce a Special Issue entitled "Women's Special Issue Series: Biomedicines" to celebrate and highlight the achievements of women in the development of new molecules and therapies for cancer research area.

For this Special Issue, we are seeking the submission of original research articles and comprehensive review papers from oncology-related fields, in particular regarding new therapeutic targets, therapeutic strategies, and research of biomedicines and biopharmaceutical products.

The Series advocates the advancement of women in science. We invite contributions to the Special Issue whose lead authors identify as women. The submission of articles with all-women authorship is especially encouraged. However, we do welcome articles from all authors, irrespective of gender.
