Message from the Guest Editor

In recent years, diagnoses of Autism Spectrum Disorders (ASD) have significantly increased. According to the DSM-V, ASD are a heterogeneous set of neurodevelopmental disorders characterised by deficits in social communications and interaction plus the presence of restricted interests and repetitive behaviours.

This Special Issue of *Brain Sciences* aims to present a collection of studies detailing the most recent advancements in the field of autism research. Authors are invited to submit cutting-edge research and reviews that address a broad range of topics related to ASD including the following: epidemiology, motor development, screening, early diagnosis, evidence-based intervention, comorbidities, new technologies (e.g., eye-tracking, EEG, ECG, MR, wearable sensors, VR, robotic research), adaptive behaviours, sensory profiles, language, cognitive priors, biomarkers, autism and health, and transition to adult age. In particular, we aim to present advances in autism research that may have a significant translational effect to the field of clinical services

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, PsycInfo, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.2 days after submission; acceptance to publication is undertaken in 1.9 days (median values for papers published in this journal in the first half of 2025).
