submissions:

closed (15 July 2020)

Message from the Guest Editor

Stroke is the No. 5 cause of death and a leading cause of disability in the United States. One out of every 20 deaths is due to stroke, and stroke is a leading cause of serious long-term disability. Although stroke rates have declined in high-income countries, the total number of strokes worldwide is increasing due to an aging population and elevated stroke rates in low-middle-income countries. Strokes are preventable and treatable, which motivates medical providers and researchers to discover new and better ways to prevent stroke from occurring and to treat the symptoms of stroke more effectively to prevent death and reduce disability.

This Special Issue of *Brain Sciences* will explore the current trends, innovative concepts, and preclinical and clinical research into stroke mechanisms, prevention, and treatment. Authors are invited to submit original research, topic reviews, or case studies that will inform the reader and improve our knowledge of stroke.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are invited to contribute a research article or a comprehensive review for consideration and publication in *Brain Sciences* (ISSN 2076-3425). *Brain Sciences* is an open access, peer-reviewed scientific journal that publishes original articles, critical reviews, research notes, and short communications on neuroscience. The scientific community and the general public can access the content free of charge as soon as it is published.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, PSYINDEX, CAPlus / SciFinder, and other databases.

Rapid Publication: manuscripts are peer-reviewed and a first decision is provided to authors approximately 15.6 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2023).
