Houston, TX 77030, USA

### Message from the Collection Editor

Dear Colleagues,

MedNews Week hosts biweekly conferences featuring internationally renowned experts working in precision oncology and immunotherapy. In addition, they host MedNews Week Around the World, which is a virtual roundtable discussing the latest advances made in medicine and described in research journals with special guests, including the authors and editors of the discussed article.

The aim of this Special Issue is to publish commentaries on the latest scientific papers and advancements made in precision oncology and immunotherapy presented and discussed in MedNews Week lectures. These Commentaries will be prepared by a team of medical professionals at MedNews Week, and reviewed by additional independent experts before publication in *Cancers*.

We heartily look forward to your receiving contributions, as well as feedback from our readers.

Dr. Jason Roszik  
*Guest Editor*

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q1 (Oncology) / CiteScore - Q1 (Oncology)
