Deadline for manuscript  
submissions:

**closed (28 February 2015)**

### Message from the Guest Editor

Dear Colleagues,

The field of non-small cell lung cancer (NSCLC) has made significant advances over the last decade. This ranges from staging classification, pathological classification, early lung screening, cytotoxic chemotherapy and new targeted treatments that have transformed lung cancer treatment for metastatic disease with molecular biomarkers. We are now entering into the new exciting era of an immunotherapy approach using drugs that can prevent NSCLC cells from evading the immune system. The purpose of this special issue is to summarize and update fellow researches as to the remarkable progress we have made for NSCLC therapies in the last several years. Both review papers and research papers are welcome.

Prof. Dr. Siow Ming Lee

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
