## Rho Family of GTPases in Cancer

Guest Editor:

**Prof. Dr. Suranganie F.  
Dharmawardhane**

Department of Biochemistry,  
School of Medicine, University of  
Puerto Rico-Medical Sciences  
Campus San Juan, Puerto Rico,  
USA

Deadline for manuscript  
submissions:

**closed (31 March 2020)**

### Message from the Guest Editor

Rho GTPases have emerged as pivotal drivers of cancer metastasis in multiple cancer types. Therefore, understanding their dysregulation in cancer, and developing drugs to inhibit the activation of Rho GTPases has become a priority. Rho GTPases regulate cancer cell motility and invasion, which are a hallmark of metastasis. Even though oncogenic point mutations and splice variants have been reported from a number of cancers, Rho GTPases do not have to be mutated in cancer to drive cancer progression.

Much effort has been directed towards drugging the Rho GTPases; however, these drugs have yet to reach clinical trials. This special issue will highlight the current understanding of Rho GTPases in cancer with an emphasis on recognizing their central importance as critical targets for metastatic cancer therapy, for modulation of immunotherapies, and for chemosensitization of current therapeutic strategies.

Houston, TX 77030, USA

## Message from the Editor-in-Chief

*Cancers* is an international online journal addressing both clinical and basic science issues related to cancer research. The journal is publishing in Open Access format, which will certainly evolve to ensure that the journal takes full advantage of the rapidly changing world of information and knowledge dissemination. It publishes high-quality clinical, translational, and basic science research on cancer prevention, initiation, progression, and treatment, as well as other related topics, particularly to capture the most seminal studies in the rapidly growing area of immunology, immunotherapy, and tumor microenvironment.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Oncology*) / CiteScore - Q1 (*Oncology*)
