Prof. Dr. Joydeep Dutta

Applied Physics Department, School of Engineering Sciences, KTH Royal Institute of Technology, Hannes Alfvéns väg 12, 11419 Stockholm, Sweden **Message from the Guest Editors**

This Special Issue aims at reporting recent advances in the synthesis of novel supported gold nanocatalysts with high activity and stability for many catalytic and photocatalytic reactions. Moreover, potential applications, kinetics, reaction rates, reaction mechanisms, active sites, nature of support, gold-support interaction, preparation conditions, surface aria, heat treatment, as well as the morphology of the catalyst and its effect on catalytic activity and stability, are valuable subjects for this Special Issue.

Deadline for manuscript submissions:

closed (28 February 2019)
