Angiogenesis, IRCCS Ospedale
Policlinico San Martino, 16132
Genoa, Italy

Message from the Collection Editor

Dear Colleagues,

This Topical Collection entitled “Feature Papers in Cellular Immunology” will collect high-quality research articles, communications, and review articles in cutting-edge fields of cellular immunology. Since the Topical Collection aims to illustrate, through selected works, frontier research in Cellular Immunology, we encourage Editorial Board Members of the Cellular Immunology Section of *Cells* to contribute feature papers reflecting the latest progress in their research field, or to invite papers from relevant experts and colleagues.

We welcome manuscripts that emphasize phenotypic, biochemical, molecular features, and functional mechanisms of immune cells. Relevant research topics include, but are not limited to, the following:

- Innate immunity
- Adaptive immunity
- A bridge between innate and adaptive immunity
- Cross-talk between immune cells and tissue microenvironment
- Immunobiology and immunogenetics
- Tumor immunology
- Cells in immune-mediated diseases
- Immunopharmacology
- Infection immunology
- Neuroimmunology
- Transplantation immunology

Copenhagen, Copenhagen,
Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
