Feature Papers in Cell Nuclei: Function, Transport and Receptors

Collection Editor:

Prof. Hiroshi Miyamoto

Director of Genitourinary
Pathology, University of
Rochester Medical Center,
Rochester, NY, USA

Message from the Collection Editor

Dear Colleagues,

This Topical Collection “Feature Papers in Cell Nuclei: Function, Transport and Receptors” aims to collect high-quality research articles, review articles, and communications on all aspects of cell nuclei, with a focus on cell biology research. Since the goal of this Topical Collection is to illustrate, through selected works, frontier research in cell nuclei, I encourage Editorial Board Members of *Cells* to contribute papers reflecting the latest progress in their research field or to invite relevant experts and colleagues to do so. We also welcome senior experts in this field to make contributions to this Topical Collection.

Topics include, without being limited to:

- Gene regulation
- Transcription
- Translation
- Cell growth
- Cell reproduction
- Nuclear structures
- Nuclear transport and assembly
- Nuclear receptors

Centre, The University of
Copenhagen, Copenhagen,
Denmark

Message from the Editorial Board

Cells has become a solid international scientific journal that is now indexed on SCIE and in other databases. We have successfully introduced a special issues format so that these issues serve as mini-forums in specific areas of cell science. *Cells* encourages researchers to suggest new special issues, serve as special issues editors, and volunteer to be reviewers. Our main focus will remain on cell anatomy and physiology, the structure and function of organelles, cell adhesion and motility, and the regulation of intracellular signaling, growth, differentiation, and aging. We are open to both original research papers and reviews.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [MEDLINE](#), [PMC](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Cell Biology*) / CiteScore - Q1 (*General Biochemistry, Genetics and Molecular Biology*)
