## Organic Chemistry Research in Italy

Guest Editor:

### Dr. Angelo Frongia

Dipartimento di Scienze  
Chimiche e Geologiche,  
Università degli Studi di Cagliari,  
Complesso Universitario di  
Monserrato, S.S. 554, Bivio per  
Sestu, I-09042 Monserrato, CA,  
Italy

Deadline for manuscript  
submissions:

**closed (31 March 2023)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue of *Chemistry* regarding Italian research will publish reviews/perspectives on all fields of organic chemistry and applied organic chemistry, as well as research articles on hot topics. The topics may embrace new synthetic methods, bio-organic chemistry, organo-metallic chemistry, heteroatom chemistry, asymmetric syntheses, heterocyclic chemistry, carbocycles, macrocycles, natural product chemistry, green chemistry, organocatalysis, biocatalysis, transition metal catalysis, heterogeneous catalysis, mechanochemistry, click reactions, microwave chemistry, ionic liquids, flow chemistry, supramolecular chemistry, photochemistry, suitable aspects of medicinal chemistry and polymer chemistry as well as organic optoelectronic materials. Theoretical aspects, including mechanisms, are also within the scope of this Special Issue.

Dr. Angelo Frongia

## Editor-in-Chief

### Prof. Dr. Igor Alabugin

Department of Chemistry and  
Biochemistry, Florida State  
University, Tallahassee, FL 32306,  
USA

## Message from the Editor-in-Chief

Chemistry is a broad science and in *Chemistry* we hope to showcase the excellence of this fundamental discipline. Open Access publishing allows scientists to publish their research in a way that reaches the widest possible audience. In *Chemistry* we aspire to build a genuinely transdisciplinary culture in which communication of results between scientists active in different areas and between scientists and the broader public highlights the benefits that chemistry can bring to society. We encourage papers on all aspects of chemistry ranging from astrochemistry to zoochemistry, with everything in between. We also very strongly welcome inter- and multidisciplinary papers which expand the subject beyond its present horizons. We also welcome themed issues collecting reviews and state-of-the-art papers in topical areas of chemical science.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [CAPus / SciFinder](#), and [other databases](#).

**Reliable service:** rigorous peer review and professional production.
