Deadline for manuscript
submissions:

31 January 2025

Message from the Guest Editor

Dear Colleagues,

I am delighted to organize a Special Issue in the *Chemosensors* journal, titled "Application of Laser-Induced Breakdown Spectroscopy, 2nd Edition". The main purpose of this SI is to report on the recent progress made in the application of LIBS in different fields to provide a clearer picture on how this technology should be developed in the future and to show its importance people who are interested in elementary chemical analysis.

Our previous SI, "Application of Laser-Induced Breakdown Spectroscopy", has been successfully published 12 papers. We hope that more scholars will take note of the second edition of this Special issue and contribute their valuable research. Any interesting applications with unique facility design, quantification methods, an understanding of improvement, and successful demonstration are welcome.

Prof. Dr. Zhe Wang

Guest Editor

an Open Access Journal by MDPI

Villeurbanne, France

Message from the Editor-in-Chief

Chemosensors is an international, scientific, open access journal on the science and technology of chemical sensors published by MDPI. All articles are released on the internet immediately following acceptance. The journal publishes reviews, regular research papers, and communications. The scope of Chemosensors includes:

New chemical sensors design

Electrochemical devices, potentiometric sensor, redox electrode

Optical chemical sensors

Analytical methods

Environmental monitoring

Gas detectors

electronic nose, etc.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q1 (*Instruments & Instrumentation*) / CiteScore - Q2 (*Analytical Chemistry*)
