Deadline for manuscript  
submissions:

**closed (31 December 2020)**

### Message from the Guest Editor

It is my pleasure to introduce a new Special Issue of *Coatings* entitled “Paints and Paint Additives”. This Special Issue provides a privileged platform to publish original research articles focused on the most recent findings in the field related to paints, lacquers, and varnishes. Contributions on preparation, characterization, properties and application of new binders, pigments, additives, as well as their formulations are particularly welcome.

In particular, the topic of interest includes but is not limited to:

- High solid binders and formulations;
- Binders and additives for latex paints;
- Pigments for protective and decorative coatings;
- Paint formulations with self-cleaning, self-healing and depollution properties;
- Replacement of raw materials with ecologically sustainable alternatives;
- The use of renewable feedstocks in the paint industry;
- Additives for high-performance paints.

## Editors-in-Chief

### Prof. Dr. Wei Pan

State Key Laboratory of New  
Ceramics and Fine Processing,  
School of Materials Science &  
Engineering, Tsinghua University,  
Beijing 100084, China

### Dr. Emerson Coy

NanoBioMedical Centre, Adam  
Mickiewicz University in Poznań,  
ul. Wszechnicy Piastowskiej 3, 61-  
614 Poznań, Poland

## Message from the Editorial Board

Now more than ever, research is called for to produce technologies and improve knowledge to solve the major challenges faced by our society. The development of new materials and devices for (without the ambition to be exhaustive) energy, health and food technology, together with the need for establishing processes that reduce the impact on critical resources and the environment, is indeed at the center of most contemporary research. Surface science and engineering play a key role in this regard. Refining surfaces and their modifications provides new materials, architectures and processes with a huge potential to aid most societal challenges. *Coatings* is a well-established, peer-reviewed, online journal that focuses on the dissemination of publications in the field of surface science and engineering. *Coatings* publishes original research articles that report cutting-edge results and review papers on the hottest topics.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** JCR - Q2 (*Materials Science, Coatings & Films*) / CiteScore - Q2 (*Surfaces and Interfaces*)
