Cagliari, Italy

Prof. Dr. Heinz Zimmermann

Chair of Finance, Department of
Business and Economics,
University of Basel, 4002 Basel,
Switzerland

Message from the Guest Editors

With this Special Issue, we seek to provide insight related to the empirical findings on financialization, including assessments of the impact of data quality, specification of variables (e.g., futures prices and returns, speculation proxies), model selection and estimation (including estimation periods), and choice of asset universe. We seek papers that are particularly focused on empirical and methodological questions and provide insight on the sensitivity of empirical findings against sample selection, variable measurement, and model specification.

Deadline for manuscript
submissions:

1 June 2024
