Luxembourg

Deadline for manuscript  
submissions:

**closed (30 April 2016)**

### Message from the Guest Editor

Dear Colleagues,

This Special Issue is devoted to formal methods. Submissions are invited for the following principal themes, but any topics relevant to the field of formal methods and their practical applications will also be considered.

- Formal specification and modeling
- Formal verification and model checking
- Formal approaches to testing
- Formal methods for self-adaptive systems
- Formal methods for concurrent and real-time systems
- Formal methods for cloud computing and cyber-physical systems
- Formal methods for software safety, security, reliability and dependability
- Tool development, integration and experiments

Papers describing applications of formal methods in the areas of computer security, biology, and healthcare are also highly relevant.

Dr. Jun Pang  
*Guest Editor*

an Open Access Journal by MDPI

## Editor-in-Chief

Department of Computer Science  
& Engineering (DISI), University of  
Bologna, 40136 Bologna, Italy

## Message from the Editor-in-Chief

You are invited to contribute a research article, a comprehensive review or a software paper for consideration and publication in *Computers* (ISSN 2073-431X). *Computers* is an international, peer-reviewed, open access journal which provides an advanced forum for computer sciences. *Computers* is published in open access format—research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), dblp, Inspec, and other databases.

**Journal Rank:** CiteScore - Q2 (*Computer Networks and Communications*)
