of Sciences

Deadline for manuscript
submissions:

closed (20 February 2019)

Message from the Guest Editor

The Special Issue on “Crystalline Raman Lasers” is intended to provide a unique international forum aimed at covering a broad description of lasers utilizing Raman crystals with various temporal, spectral and energy properties, as well as Raman crystal characterizations. Scientists and engineers working with Raman crystals and lasers are invited to contribute to this issue.

keywords:

- Stimulated Raman Scattering
- Light Frequency Conversion
- Raman Effect
- Spontaneous Raman Spectroscopy
- Raman Lasers

Message from the Editor-in-Chief

Welcome to *Crystals*, the journal dedicated to the fascinating world of crystallographic research! Crystals are more than mere decorative elements; they hold the key to understanding the fundamental structure of matter. Our mission is to explore the crucial significance of this research across various fields. From medicine to technology, chemistry to geology, crystals play a vital role. Their structure provides insights into new advanced materials, innovative drugs, and groundbreaking technologies. Through *Crystals*, we delve into the microscopic world to discover solutions that will shape the future. Join us on a journey through the *Crystals*, where science merges with beauty and innovation.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [Inspec](#), [CAPus](#) / [SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Crystallography*) / CiteScore - Q2 (*Condensed Matter Physics*)
