Message from the Guest Editor

Dear Colleagues,

Race, ethnicity, and class impact the oral health of populations in multiple ways. According to the differential exposure hypothesis, race, ethnicity, and class impact exposure to a wide range of risk and protective factors that have oral health implications. According to differential effects hypothesis, race, ethnicity, and class alter the effects of risk and protective factors. Finally, it is not just race, ethnicity, and class, but their intersections that shape oral health needs.

This Special Issue invites state-of-the-art original and review articles on the above-mentioned topics. Potential papers of interest include: 1) studies testing differential exposure or differential vulnerability; 2) studies testing additive and multiplicative effects; 3) studies that compare countries or locations within countries; 4) studies that report mediators or moderators of disparities; 5) studies on tailored interventions for sub-populations; 6) studies using a national sample, or using longitudinal design; 7) studies using an intersectionality approach; and 8) studies on measurement and methodology issues.

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **ESCI (Web of Science)**, **PubMed**, **PMC**, and **other databases**.

Journal Rank: CiteScore - Q2 (*General Dentistry*)
