Message from the Guest Editor

Dear Colleagues,

Dentistry is advancing at a rapid pace, which will benefit our patients and the profession alike. The future is very bright and the profession is gaining respect from the medical community due to the scientific bases for many of the modern techniques used in the practice of dentistry. Several areas include the use of bone grafting using autogenous, allograft and/or xenograft materials. This, added with the addition of growth factors such as rhPDGF open new treatment options in the replacement of missing bone. Another field of rapid expansion is the use of lasers to sterilize periodontal pockets and reduce/eliminate/regrow the vertical loss of hard and soft tissue, once thought impossible. Both of these areas can benefit the treatment of geriatric patients as practices treat an increasing number of patients in their 80s, 90s, and above.

Therefore, the challenge is keeping up with the rapid advances in our profession, which provide many opportunities to advance and protect the oral health of our patients, who place their trust in our judgement and skills.

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Claude Jaquéry

Department for Cranio-Maxillo-Facial Surgery, University Hospital Basel, Spitalstrasse 21, CH-4031 Basel, Switzerland

Message from the Editor-in-Chief

The *Dentistry Journal* (ISSN 2304-6767) is an official, peer-reviewed publication of MDPI, which transmits original papers as well as review articles from the entire field of dentistry to the scientific community. The *Dentistry Journal* supports scientific innovations, and clinical and experimental research within the whole field of dentistry and its related areas. The *Dentistry Journal* in particular supports interdisciplinary and translational studies. The *Dentistry Journal* provides a unique opportunity to contribute high quality articles and to take advantage of its large readership.

Author Benefits

Open Access: free for readers, with **article processing charges (APC)** paid by authors or their institutions.

High Visibility: indexed within **Scopus**, **ESCI (Web of Science)**, **PubMed**, **PMC**, and **other databases**.

Journal Rank: JCR - Q1 (Dentistry, Oral Surgery and Medicine) / CiteScore - Q2 (General Dentistry)
