Message from the Guest Editors

This Special Issue aims to provide a comprehensive platform for researchers and practitioners to explore the latest advancements in the diagnosis, management, and rehabilitation of musculoskeletal disorders. Musculoskeletal disorders encompass a wide range of conditions, affecting fascia, muscles, tendons, ligaments, and other supporting structures of the body. These disorders pose significant challenges to patients and healthcare professionals alike, requiring a multidisciplinary approach for effective treatment and care.

This Special Issue seeks to address the key topics related to musculoskeletal disorders, including but not limited to diagnostic techniques, novel imaging modalities, therapeutic interventions, rehabilitation strategies, and patient outcomes. Submissions in the form of original research articles, review papers, and case studies that shed light on various aspects of musculoskeletal disorders, spanning from basic science to clinical applications, are welcome.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPlus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
