### Message from the Guest Editors

Dear Colleagues,

The global burden of liver and inflammatory bowel diseases is on the rise. Although complex pathophysiological mechanisms of various liver disorders as well as inflammatory bowel disease have been elucidated, morbidity is still high. Although breakthroughs in diagnosing metabolic-dysfunction-associated steatosis liver disease, primary sclerosing cholangitis, primary biliary cholangitis, hepatitis B and C, and autoimmune hepatitis have been made in recent decades, the adequate timing of diagnosis, and hence treatment, still remains a clinical challenge. Taking into consideration that liver disease in some cases may accompany inflammatory bowel disease, it is of great importance to diagnose both conditions properly so that the management of these diseases can commence in a timely and adequate manner.

In this Special Issue, new, original research articles and reviews regarding the diagnosis and management of liver and inflammatory bowel diseases, as well as complications and special conditions related to these diseases, will be considered for publication.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPlus / SciFinder](#), and [other databases](#).

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)
