Deadline for manuscript
submissions:

31 July 2024

Message from the Guest Editor

Gynecologic oncology is a rapidly evolving field of medicine that integrates knowledge from various fields and often requires a multidisciplinary approach when planning treatment. Clinical, radiological, and molecular information must all be included in the diagnosis and treatment plan. Recent molecular advances in endometrial and ovarian cancer have improved our understanding of these diseases and their response to treatment and moved the trend of treatment toward personalized medicine. There are, however, still many questions that remain unanswered, such as the best approach in advanced ovarian cancer, the role of neoadjuvant chemotherapy in fertility-sparing treatment of cervical cancer, and many more. This Special Issue aims to answer these seemingly unanswerable questions.

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*)
