Message from the Guest Editors

Dear Colleagues,

Hepatobiliary diseases are a highly complex and heterogeneous group of disorders that include a vast number of benign and malignant conditions. There has been a worldwide increase in the number of patients afflicted with hepatobiliary diseases. Light microscopic evaluation remains the gold standard for the diagnosis of most pediatric and adult primary hepatobiliary diseases, as well as focal or diffuse space-occupying lesions. These are very exciting times in liver pathology, as there has been tremendous improvement in our understanding of the pathogenetic process of many hepatobiliary disease processes and liver cancer, thus, further strengthening the role of pathologists evaluating liver biopsies.

This Special Issue aims to review advances in the pathology of pediatric and adult hepatobiliary diseases, such as cholestasis, steatohepatitis, autoimmune hepatitis, cholangiopathies, vascular liver diseases, drug-induced liver injury, primary liver cancer and others. We welcome original submissions, reviews, or brief reports for this Special Issue.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Embase](#), [Inspec](#), [CAPus / SciFinder](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Medicine, General & Internal*)
