Division of Gastroenterology and Hepatology, Department of Internal Medicine, Soonchunhyang University Bucheon Hospital, Bucheon 14584, Republic of Korea

Deadline for manuscript submissions:
31 July 2024

Message from the Guest Editor

Dear Colleagues,

Advances in the field of diagnostics of liver diseases have been spurred by the development of increasingly accurate biomarkers or image modalities that have helped to revolutionize the diagnostic accuracy and provided increased precision in targeted therapeutics.

This Special Issue welcomes contributions covering the current aspects of the diagnosis and management of liver diseases. Submissions may include articles presenting current original research, new experimental methodologies, and/or review articles summarizing the current state of the art for clinical diagnosis, state-of-the-art treatment, and management of liver disease. Discussions of the current drawbacks to diagnostic accuracy and future directions for improved accuracy and management are welcome. I look forward to scrutinizing your contributions.

Prof. Dr. Jeong-Ju Yoo

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.
Journal Rank: JCR - Q2 (*Medicine, General & Internal*)
