### Message from the Guest Editor

Dear Colleagues,

To celebrate the establishment of our new section “Neuro-psychiatric Disorder”, I have the honor to edit a new Special Issue. The Special Issue aims to collect original research papers or focus reviews feature articles related to neurology, psychiatry, and neuroscience from leading scientists. Paper contributions should have a particular emphasis on novel findings in human studies and experimental animals. Interdisciplinary and translational research is particularly encouraged.

## Message from the Editor-in-Chief

*Diseases* is an international, peer-reviewed, open access, multidisciplinary journal that focuses on the latest outstanding research concerning diseases and conditions. Research articles, reviews, and other contents are released on the Internet immediately after acceptance. This journal aims to cover international conferences and symposia as new targets.

*Diseases* is increasingly gaining acceptance and visibility within scholars, and after only a few years of life, *Diseases* is now also covering specific topics with dedicated special issues. We would be pleased to welcome you as one of our authors.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High visibility:** indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPlus / SciFinder, and other databases.

**Rapid Publication:** manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.8 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2023).
