Message from the Guest Editors

Dear Colleagues,

This special issue aims to bring together emergent knowledge that can contribute to the development of both early childhood educators' and pre-service educators' understanding, practices and implementation of pedagogies - the complex connection between technology, pedagogy, and content for digital technologies in early years.

The Special Issue calls for original academic papers sharing insight into ongoing projects and research relevant to digital technologies in early childhood education and care.

We look forward to receiving your contributions.
