Message from the Guest Editor

Dear Colleagues,

The overall focus of this Special Issue is middle grades education. The scope of this issue will include key research topics in middle grades education (e.g., young adolescent development, cultural responsiveness, special populations, educator development, curriculum, social and emotional learning, digital technologies, school structures). The purpose of this Special Issue is to highlight research and evidence from scholars about how middle grades education can advance and improve outcomes for all young adolescents. With regard to the extant literature, this Special Issue has the potential to contribute the growing research base about middle grades education. It also has the potential to promote middle grades education internationally.
