

Protocols and Mechanisms for Emerging Network Technologies

Guest Editors:

Prof. Dr. Chaari Fourati Lamia

Computer Science and
Multimedia Higher Institute
(ISIMS), University of Sfax, Sfax
3021, Tunisia

Dr. Samiha Ayed

Computer Science and Digital
Society (LIST3N), University of
Technology of Troyes, 10300
Troyes, France

Prof. Dr. Adel Ben Mnaouer

School of Engineering, Applied
Science and Technology,
Canadian University Dubai, Dubai
P.O. Box 415053, United Arab
Emirates

Deadline for manuscript
submissions:

15 June 2024

Message from the Guest Editors

This century is marked by the rapid evolution of networking technologies that provide connectivity and communication infrastructure for a diverse range of smart applications.

This Special Issue's goal is to present theoretical and experimental research that focus on upcoming technologies and developing trends in the multidisciplinary field of next-generation systems. Review papers and surveys of the highest caliber are encouraged.

Topics of interest include, but are not limited to:

- Algorithms, protocols and architecture for space–air–ground integrated networks (SAGINs);
- Emerging standardization-issue-related network technologies;
- Algorithms, protocols and architecture for beyond-5G networks and emerging 6G networks;
- Protocols, services and applications for vehicular networks, internet of vehicles (IoV), vehicular cloud, UAVs, internet of drones and urban air mobility (UAMs) scenarios;
- Security, privacy and trust management within emerging network technologies.

an Open Access Journal by MDPI

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
