Advanced Control Methods and Emerging Motor Designs for Electric Propulsion Applications

Guest Editors:

Dr. Gaoliang Fang

Dr. Wei Liu

Dr. Filipe Pinarello Scalcon

Dr. Xiaokang Zhang

Message from the Guest Editors

In this Special Issue, we welcome submissions to improve the performance of electric propulsion systems, focusing on advanced speed/current/torque control methods, fault-tolerant control methods, sensorless control methods, control technologies for new inverter topologies, novel motor topologies, emerging motor design methods, etc.

Deadline for manuscript
submissions:

15 July 2024

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Department of Electronics and
Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
