

Advances in Signals and Systems Research

Guest Editors:

Dr. Kok Yew Ng

Dr. Adrian Moore

Prof. Dr. Huiru Zheng

Ruth G. Lennon

Deadline for manuscript
submissions:

30 September 2024

Message from the Guest Editors

Aims and scopes: Prospective authors are encouraged to submit previously unpublished contributions within, but not limited to, the following areas:

1. Signal Processing: This track welcomes research related to signal processing techniques, algorithms, and applications in various domains.
2. Control Systems: Contributions on control systems theory, design, and applications, including robotics and automation.
3. Cyberphysical Systems: Manuscripts exploring the integration of physical systems with computational elements and network connectivity.
4. Communications and Future Networking: Research on communication technologies, protocols, and the future of networking.
5. Cybersecurity: Papers addressing security challenges in signals and systems, including encryption, privacy, and threat detection.
6. Machine Learning and AI: Contributions in the areas of machine learning and artificial intelligence applied to signals and systems research.
7. Signals and Systems for Sustainability: Research on how signals and systems contribute to sustainable practices and environmental conservation

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Flavio Canavero

Telecommunications,
Politecnico di Torino, 10129
Torino, Italy

Message from the Editor-in-Chief

Electronics is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [CAPus / SciFinder](#), [Inspec](#), and [other databases](#).

Journal Rank: JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
