

## Operation and Control of Power Systems

Guest Editors:

**Prof. Dr. Hassan Haes Alhelou**

School of Electrical and Electronic Engineering, University College Dublin (UCD), Dublin 4, Ireland

**Prof. Dr. Amer Al-Hinai**

Department of Electrical and Electronic Engineering, College of Engineering, Sultan Qaboos University, Muscat 123, Oman

**Prof. Dr. Pierluigi Siano**

Department of Management and Innovation Systems, University of Salerno, 84084 Salerno, Italy

Deadline for manuscript submissions:

**closed (31 May 2022)**

### Message from the Guest Editors

We would like to invite submissions to a Special Issue of *Electronics* on the subject of power systems operation and control, entitled “*Operation and Control of Smart and Modern Power Systems*”.

In future smart grids, keeping the operation in stable modes requires new techniques and technologies for better controlling and security assessment in such systems. Likewise, stability and security, which are the main issues when it comes to smart grids, should be well studied and analyzed. Moreover, new protection schemes are in demand in order to face any unexpected operation problems and contingencies in the smart grid environment.

In order to cope with ever-increasing operation and control complexity and security in modern and future smart grids, new architectures, concepts, algorithms, and procedures are essential. This Special Issue aims to encourage researchers to address the technical issues and research gaps in smart grid and microgrid systems.

an Open Access Journal by MDPI

Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guestedited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, Ei Compendex and other databases.

**Journal Rank:** JCR - Q2 (Engineering, Electrical and Electronic) / CiteScore - Q1 (Electrical and Electronic Engineering)
