

## AI Enabled Communication on IoT Edge Computing

Guest Editors:

**Prof. Dr. Subhas  
Mukhopadhyay**

School of Engineering, Macquarie  
University, Sydney, NSW 2109,  
Australia

**Prof. Dr. Arun Kumar Sangaiah**

National Yunlin University of  
Science and Technology, Taiwan  
and Vellore Institute of  
Technology, Tamil Nadu 632014,  
India

Deadline for manuscript  
submissions:

**closed (31 December 2020)**

### Message from the Guest Editors

The main aim of this Special Issue is to integrate novel approaches efficiently, focusing on the performance evaluation and the comparison with existing solutions of AI-enabled communication on IoT edge computing. The papers considered for possible publication may focus on but not necessarily be limited to the following areas:

- AI-enabled edge computing architectures, frameworks, platforms, and protocols for IoT;
- Machine learning techniques in edge computing for IoT;
- Edge network architecture and optimization for AI applications at scale;
- AI Algorithms for dynamic and large-scale topology discovery;
- AI for wireless network resource management and medium access control;
- Energy-efficient edge network operations via AI algorithms;
- Deep learning and reinforcement learning in network control and management;
- Self-learning and adaptive networking protocols and algorithms;
- Novel applications, and case studies with edge computing for IoT;
- AI modeling and performance analysis in edge computing for IoT.

an Open Access Journal by MDPI

Telecommunications,  
Politecnico di Torino, 10129  
Torino, Italy

## Message from the Editor-in-Chief

*Electronics* is a multidisciplinary journal designed to appeal to a diverse audience of research scientists, practitioners, and developers in academia and industry. The journal is devoted to fast publication of latest technological breakthroughs, cutting-edge developments, and timely reviews of current and emerging technologies related to the broad field of electronics. Experimental and theoretical results are published as regular peer-reviewed articles or as articles within Special Issues guest-edited by leading experts in selected topics of interest.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** JCR - Q2 (*Electrical and Electronic Engineering*) CiteScore - Q2 (*Electrical and Electronic Engineering*)
