## Selected Papers from 27th International Conference on Mixed Design of Integrated Circuits and Systems – MIXDES 2020

Guest Editor:

**Dr. Mariusz Orlikowski**

Department of Microelectronics  
and Computer Science, Lodz  
University of Technology, 116  
Żeromskiego Street, 90-924 Lodz,  
Poland

Deadline for manuscript  
submissions:

**closed (30 September 2021)**

### Message from the Guest Editor

The MIXDES conference series began in Dębe, near Warsaw, in 1994 and has been since organised yearly in major Polish cities. Until this year, the conference has been held annually without any interruption, and gathers participants from more than 25 countries. The MIXDES conference is one of the largest in this field in Central Europe, encompassing interdisciplinary research in design, modelling, simulation, testing, and manufacturing in various areas, such as micro- and nanoelectronics, semiconductors, sensors, actuators, biomedical applications, and power devices. The main organiser of all these conferences is the Department of Microelectronics and Computer Science of the Technical University of Lodz, Poland, headed by Prof. Andrzej Napieralski.

This Special Issue presents extended versions of selected papers from MIXDES 2020—27<sup>th</sup> International Conference on Mixed Design of Integrated Circuits and Systems that was held online in June 2020.

Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
