## Latest Studies on Nanoscale Heat Transfer and Thermal Management

Guest Editor:

**Dr. Zhanbin Liu**

Key Laboratory of Thermo-Fluid Science and Engineering of Ministry of Education, School of Energy and Power Engineering, Xi'an Jiaotong University, Xi'an 710049, China

Deadline for manuscript submissions:

**30 September 2024**

### Message from the Guest Editor

This Special Issue on “Latest Studies on Nanoscale Heat Transfer and Thermal Management” aims to collect relevant studies and provide a communication platform for researchers in this field. This Special Issue covers original and innovative theoretical and technical research and studies. Research studies in recent years have focused on the development of nanofluids and nanoscale structures, the heat transfer and flow characteristics of nanofluids and nanoscale structures, the properties of nanofluids, and the processing techniques of nanoscale structures. In addition, thermal management techniques have found a wide range of applications in diverse fields of data centers, electric vehicles, electric devices, and battery energy storage. Research on different cooling methods and working fluids, enhanced heat transfer techniques, and system thermal management strategies is welcome.

### **Prof. Dr. Enrico Sciubba**

Department of Mechanical and  
Aerospace Engineering,  
University of Roma Sapienza, Via  
Eudossiana 18, 00184 Roma, Italy

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
