Bioenergy Production from Algae

Guest Editor:

Dr. Raman Vaidyanathan

Department of Chemical and
Biological Engineering, The
University of Sheffield, Sheffield
S1 3JD, UK

Deadline for manuscript
submissions:

closed (31 August 2021)

Message from the Guest Editor

Dear Colleagues,

This Special Issue focuses on current technical advances in algal biotechnology that would bring the different options closer to the reality of sustainable energy generation. Topics of interest for this special issue include, but are not limited to,

- algal carbon sequestration
- biomass and biofuels
- hydrothermal liquefaction
- transportation fuels
- synthetic biology
- metabolic engineering
- biomass harvesting
- microbial fuel cells
- microbial consortia
- renewable energy

Dr. Raman Vaidyanathan

Editor-in-Chief

Prof. Dr. Enrico Sciubba

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
