University of Applied Sciences,
Am Lurzenhof 1, 84036 Landshut,
Germany

Message from the Guest Editors

Dear Colleagues,

Electrochemical energy storage in batteries and supercapacitors has recently developed into a challenging field of interest for electromobility and the use of renewable resources. This Special Issue addresses improvements and research trends in materials development, measurement technology, and the specific operating behaviour of electrochemical energy converters in technical applications.

Deadline for manuscript
submissions:

31 August 2024

mdpi.com/si/102503

Department of Mechanical and
Aerospace Engineering,
University of Roma Sapienza, Via
Eudossiana 18, 00184 Roma, Italy

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
