Engineering, National Technical  
University of Athens, Athens,  
Greece

### Message from the Guest Editor

Dear Colleagues,

The present Special Issue of *Energies* aims to gather innovative simulations and experimental research, and highlight recent advances on various aspects of internal combustion engine operation, such as those mentioned above. More specifically, topics of interest for the Special Issue include (but are not limited to):

Deadline for manuscript  
submissions:

**closed (30 June 2019)**

- Combustion mechanisms in spark and compression ignition engines;
- Fuel injection and spray formation;
- Pollutants formation (particulate matter, NO<sub>x</sub>, CO, HC, noise);
- Exhaust after-treatment systems (three-way catalysts, oxidation catalysts, diesel and gasoline particulate filters, SCR, NO<sub>x</sub> adsorbers);
- Internal measures for emission control (EGR, water injection, etc);
- Performance and emissions during certification (driving and engine) cycles;
- Alternative fuels and biofuels effects on engine performance and emissions (ethanol, butanol, biodiesel, dimethylether, etc.);
- Recent advances in internal combustion engines experimentation;
- Novel combustion systems (HCCI, PCCI and RCCI);
- Hybrid electric engine operation;

## Message from the Editor-in-Chief

*Energies* is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

**Journal Rank:** CiteScore - Q1 (*Engineering (miscellaneous)*)
