Message from the Guest Editors

Dear Colleagues,

The 2020 IEEE International Conference on High-Voltage Engineering (ICHVE 2020) was held on 6–10 September 2020 in Beijing, China, organized by the Tsinghua University (China) and endorsed by the IEEE Dielectrics and Electrical Insulation Society (DEIS). This conference attracted a great deal of attention from international researchers in the field of high-voltage engineering. It not only provided an excellent platform to share knowledge and experiences on high-voltage engineering, but it also provided the opportunity to present the latest achievements in power engineering, including topics of ultra-high voltage, smart grid, new insulation materials, and their dielectric properties. Now, it also provides the opportunity to publish your paper in *Energies*.

Message from the Editor-in-Chief

Energies is an international, open access journal in energy engineering and research. The journal publishes original papers, review articles, technical notes, and letters. Authors are encouraged to submit manuscripts which bridge the gaps between research, development and implementation. The journal provides a forum for information on research, innovation, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, optimization of energy processes, mitigation of environmental pollutants, and sustainable energy systems.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, RePEc, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: CiteScore - Q1 (*Engineering (miscellaneous)*)
