

an Open Access Journal by MDPI

High Entropy Alloys

Guest Editor:

Prof. Dr. Jien-Wei Yeh

Materials Science & Technology Building R505, National Tsing Hua University, Hsinchu 30013, Taiwan

Deadline for manuscript submissions: closed (30 November 2013)

Message from the Guest Editor

Specific topics of interest include (but are not limited to):

- thermodynamics and kinetics
- structure, microstructure, and properties
- mechanisms
- simulation and modeling
- alloy design
- applications
- HE materials based on HEAs

Editor-in-Chief

Prof. Dr. Kevin H. Knuth

Department of Physics, University at Albany, 1400 Washington Avenue, Albany, NY 12222, USA

Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

Entropy is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Inspec, PubMed, PMC, Astrophysics Data System, and other databases.

Journal Rank: JCR - Q2 (*Physics, Multidisciplinary*) / CiteScore - Q1 (*Mathematical Physics*)
