### Message from the Guest Editors

Dear Colleagues,

This Special Issue will collect a limited number of selected invited talks presented during the XXV Sitges Conference on Statistical Mechanics, which was devoted to "Nonequilibrium phenomena in confined systems". The conference took place in Barcelona, 6–10 June, 2016. Website: <http://www.ffn.ub.es/~sitges25/>

## Message from the Editor-in-Chief

The concept of entropy is traditionally a quantity in physics that has to do with temperature. However, it is now clear that entropy is deeply related to information theory and the process of inference. As such, entropic techniques have found broad application in the sciences.

*Entropy* is an online open access journal providing an advanced forum for the development and/or application of entropic and information-theoretic studies in a wide variety of applications. *Entropy* is inviting innovative and insightful contributions. Please consider *Entropy* as an exceptional home for your manuscript.
