submissions:

closed (31 December 2023)

Message from the Guest Editor

Dear Colleagues,

This Special Issue aims to collect high-quality review papers in all fields of microbial metabolism, physiology, and genetics. We encourage researchers from related fields to contribute review papers highlighting the latest developments in microbial metabolism, physiology, and genetics (including transcriptomics, proteomics, and genomics, as well as integrated approaches), or to invite relevant experts and colleagues to do so. Full-length comprehensive reviews will be preferred.

Let us share the science as widely as possible.

Prof. Dr. Ronnie Willaert

Message from the Editor-in-Chief

Welcome to a new open access journal, Fermentation, which meets the growing need for a high quality peerreviewed international journal with easy access to all researchers globally. We hope that you will share our enthusiasm for this new journal and look forward to working with you to make Fermentation a leader in its field. Your contributions are vital for the success of this new journal. Proposals for editing a special issue for a particular topical area are always welcome.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubAg, FSTA, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Biotechnology & Applied Microbiology*) / CiteScore - Q2 (*Plant Science*)
