### **Message from the Guest Editors**

Dear Colleagues,

The year 2023 marks the 10th year of the journal *Fibers*, and we invite you to join us in celebrating its anniversary. To this end, the journal will publish an anniversary Special Issue, “*Fibers* 10th Anniversary: Past, Present, and Future”. We invite you to submit an original article reflecting your latest work related to fiber research.

We also welcome reviews of past and current research, and future perspectives. Editors, authors, and reviewers who have made contributions to *Fibers* are particularly invited to contribute. Topics of interest include, but are not limited to: fiber and fiber-based materials’ properties, the design of fibrous materials, biocompatibility, toxicology and environmental safety, and the processing of fibers and any aspect of fibrous materials.

Prof. Dr. Catalin R. Picu

Prof. Dr. Lucian Lucia

## Message from the Editor-in-Chief

*Fibers* is intended as an integrative platform, bringing together specialists with expertise concerning a large range of biological, synthetic, metallic and mineral fibers. The intent is to bring together scientists who would otherwise be unlikely to encounter each other's findings. By facilitating communication across specialties, the journal will advance understanding of the underlying commonality of many physical and chemical aspects of fibers.

We welcome submission of manuscripts from a diverse range of disciplines relating to many types of fibers utilizing a variety of research approaches.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, ESCI (Web of Science), PubAg, CAPlus / SciFinder, Inspec, and other databases.

**Journal Rank:** CiteScore - Q1 (*Civil and Structural Engineering*)
